TDS Network Outbound

tds-networks.eu

Our hotel search engine makes an intelligent search of inventory to show the best net rates and availability.

A consolidated list of hotels with images, brief description, room types, rates, and availability status is displayed on the screen.

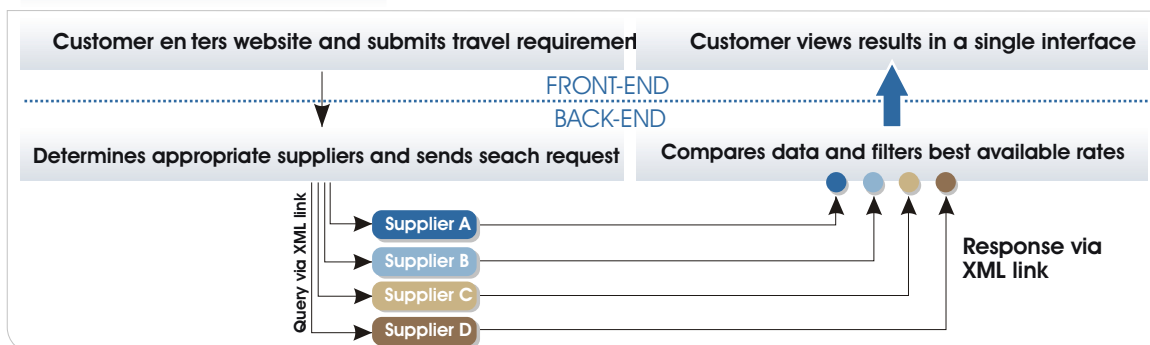

Track your bookings in real-time. My Bookings section allows agents to search and view history of previous bookings, which can be cancelled or amended.

Generate customised reports that provide insights about your business, which you can use to your advantage.
